LEARN

More than **60 PERCENT** of attendees will start a project within the next **12 MONTHS**

"It's **SO INSPIRING** to be here. I'm so impressed with the density of technical content, the **CREATIVITY** of solutions presented—to some pretty **COMPLEX** problem statements—but most of all, the **PASSION** of the speakers."
- I²SL Annual Conference attendee

2017 I²SL ANNUAL CONFERENCE

October 15–18, 2017

Boston Marriott Copley Place

Boston, Massachusetts

NETWORK

I²SL is dedicated to advancing sustainable laboratories globally

SHARE

The I²SL Annual Conference is the country's premier sustainability training and exposition for those who design, build, own, operate, and use sustainable laboratories and other high-tech buildings.

LEARN

- Attend the conference to **hear from industry experts**. Discounted registrations are available for groups, federal and university employees, project teams, and I²SL Members.
- **Earn continuing education credits** for each of the technical sessions and pre-conference training sessions that you attend.

NETWORK

- **Connect and engage** with other industry professionals during formal networking opportunities, throughout meals and breaks, and digitally through the onsite mobile conference app.
- Become an I²SL Member to stay **engaged with the I²SL community year round**. Members receive a conference registration discount and get access to the Annual Conference Presentations Archive, in addition to many other benefits.

SHARE

- Submit an abstract to the **Call for Presenters** to share how you are developing and maintaining your sustainable, high-tech facilities.
- Sign up to exhibit to **showcase your sustainable laboratory equipment or services** in the Technology and Services Fair.
- Sponsor the conference and **broaden your organization's visibility** at the event. Choose from a variety of opportunities starting at just $500.

"The strength of the I²SL conference is that it gives all high-tech building stakeholders an opportunity to collaborate and learn from a variety of expertise."
