Hello I2SL Georgia Chapter!

We wrapped up 2024 with a great annual meeting at Science Square Labs. We confirmed the nominations of Michael Biggs and Geoffrey Maulion as our newest board members. We also elected Maria Montgomery as the chapter president, and Scott Rose as the chapter vice president.

I2SL is co-hosting our third annual virtual, international Education Week April 7 to 11, 2025, in conjunction with Sustainable Labs Canada (SLCAN), our Australia I2SL chapter, the I2SL chapter forming in the UK, and the EGNATON sustainable lab organization of Europe. Over the course of five days, attendees from across the globe will hear live sessions on sustainable design, lab decarbonization strategies, efficient ventilation systems, and green lab leadership. Registration is open at the following link: <https://www.i2sl.org/education-week>

Stay tuned for more information about our upcoming TOPGOLF event scheduled for May 15th!

- Company logo displayed on the I2SL Georgia website
