Nice and COLD: How to Get Involved in the North American Laboratory Freezer Challenge

Dear I²SL Chapter Officers,

I²SL partnered with [My Green Lab](#) to launch the [North American Laboratory Freezer Challenge](#), an initiative to recognize participating laboratories for implementing sustainable cold storage management practices. I²SL Chapters can help labs in your region stay **COLD** by:

Collaborating with [participating labs and organizations](#) in your area to share best practices and tips for cold storage management

Organizing chapter events, lab tours, [workshops](#), and [webinars](#) to provide opportunities to learn more about cold storage management topics, including [shared-space freezer programs](#), [outreach strategies](#), and more

Leveraging relationships with local contacts to foster collaboration around the Freezer Challenge in your region

Distributing [information about the challenge](#) to keep the momentum going and encouraging your regional laboratories to [sign up](#) for the challenge

The Freezer Challenge will start in January 2017 and continue through May 2017. Spread the word to labs in your region and have them sign up to participate on the [Freezer Challenge website](#).

Thank you for your continued support of I²SL!

Shannon Johnson and Crystal Jones
I²SL Chapter Coordinators

Chapter Anniversaries This Month

Congratulations to the New England Chapter on their three-year anniversary, the North Carolina-Triangle Chapter on their two-year anniversary, and the Singapore Chapter on their one-year anniversary!
